

SciFinder Scholar

Downloading & Installation

The SciFinder Scholar client application is needed to access this database.
It is **not** available off campus except through EZ-Remote.

Hardware and Software Requirements

<http://www.cas.org/SCIFINDER/SCHOLAR/systreq.html>

Windows (2006 edition)

1. If you have SciFinder Scholar 2004 or previous versions installed, uninstall before beginning installation of the new version. (Note: All previous versions will not be supported after March 2006.)
2. Go to <http://digilib.library.cornell.edu/ftp/pub/SciFinder/PC>.
3. Download and run **SFS2006.exe**.
4. Follow the prompts to complete the installation. Accept all default values, and override all previous files.
5. Go to <http://digilib.library.cornell.edu/ftp/pub/SciFinder/PC>, and right-click to download the **site.prf** file.
6. Save the file **site.prf** in the folder **C:\SFSCHLR**.
7. See SciFinder Scholar resources at:
<http://www.cas.org/SCIFINDER/SCHOLAR/resources.html>

Mac (2006-OSX edition)

1. If you have SciFinder Scholar 2004 or previous versions installed, uninstall before beginning installation of the new version.
2. Go to digilib.library.cornell.edu/ftp/pub/SciFinder/Mac.
3. Download SciFinder Scholar scholarosx2006-cornell.dmg (a Macintosh Disk Image File) to your desktop or a download folder on your OS X drive.
4. Double-click "scholarosx2006-cornell.dmg" to mount SciFinder Scholar (a desktop volume containing the SciFinder Scholar application package).
5. Open the SciFinder Scholar Volume if it does not auto-open.
6. Drag and drop the SciFinder Scholar Application Package to your applications folder.
7. Eject (Unmount) the desktop SciFinder Scholar Volume.
8. See SciFinder Scholar resources at:
<http://www.cas.org/SCIFINDER/SCHOLAR/resources.html>

For assistance with SciFinder Scholar please contact a reference librarian at the Physical Sciences Library (pslref@cornell.edu, 255-4016).
